REMARKS: Climatological normal -30-year average (1991-2020)

Rainfall was less than normal (28% of normal). Daytime highs were much higher than usual and night-time low temperatures were as cool as usual. The 2005 daily max temperature record was broken. The Atlantic high-pressure system was dominant throughout the month. Gusty winds and haze were observed. Thunderstorms were reported on one day. There was one 9-day dry spell in the first half of the month and a six-day heatwave.
