REMARKS: climatological normal rainfall- 30-year average (1982-2011) and average temperature revised - 21 -year average (1990-2010)
Wet as usual conditions with warmer than usual daytime temperatures and normal night-time temperatures were recorded. A series of trough systems and the Atlantic high-pressure system were the dominant features. Thunderstorms were recorded on 2 days. Flooding and landslides across the north to central and south east areas on the $10^{\text {th }}$. Flooding in the Portsmouth area on the 29th.
